Extended Warranties

Extended warranties are available upon request and are provided & maintained by the Manufacturer. Contact us for available warranties for your computer.

All Warranties Supplied and Executed By the Manufacturer, Not CompuFort

Computer System Options

Basic Computer Setup - \$55

Before you pick up the computer we will prep it here by going through the initial setup process. We will install any available updates to the system, any software you provide, including any Antivirus Software. We will burn recovery discs as well.

Basic Computer Setup and Data Copy - \$110

Same as above, and in addition, copying any data you have from an old computer or other source.

New Computer Deliver & Set up - \$45.00

We will deliver and plug in your computer.

Important Information About CompuFort Computer Systems

Prices

Prices are subject to change without notice. Please call to verify the current price.

Windows Discs

Many computer manufacturers no longer supply Windows discs or restore discs. It is the consumer's responsibility to create those disks using a program in Windows.

Trial Software

Manufacturers typically preload Windows with trial versions of software. It might include a limited time version of an anti-virus program.
